DETAILED ACTION

Examiner's Comments

1. The Examiner contacted the applicant to verify that the applicant intended to respond to the restriction requirement made in a Final Office Action mailed 12/7/04 by withdrawing the claims without traverse. In remarks filed 11/14/05, the applicant states that claims 29 and 32 are withdrawn with traverse, however there are no arguments pertaining to the restriction requirement. It appears as if the applicant intended to withdraw the claims without traverse and the claims will be treated accordingly.

2. This application is in condition for allowance except for the presence of claims 29 and 32 directed to inventions non-elected without traverse. Accordingly, claims 29 and 32 have been cancelled.

Allowable Subject Matter

3. Claims 1-18,30, and 31 are allowed.

4. The following is an examiner's statement of reasons for allowance: The applicant's arguments (see last paragraph of page 9 and first two paragraph of page 10) with regard to independent claims 1,30, and 31 are persuasive. The prior art of record

fails to teach or suggest alone or in combination, a data rate monitor operative to enable at least one laser unit that transfers data via free space, when the data rate meets a condition wherein data communication is improved using the laser unit (claim 1); and switching data transfer from a non-laser network to at least one laser network based on the data rate (claims 30 and 31) in combination with the other recited claim elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
